TUESDAY EVENING, NOV'R. 5.

ADVERTISING.-If country publishers will set their faces against accepting one-fourth rates from advertising agents, and demand the same prices from them that they ask and get from their home advertisers, much evil will be stopped. Let no publisher of a country paper think because he is poor and needs all the money he can get, that it is an excuse to take advertisements at starvation rates. Many publishers think these advertisements fill up space and bring in a little revenue. Better make your paper smaller. It is no credit or profit to publish a paper the size of a bed quilt and fill it with humbug advertisements at quarter rates. Resolve to refuse advertisements unless you get a fair living price for them, and you will better your condition, and feel better, and have more money in your pockets. After several years of experience, we fined it very easy to refuse an advertisement offered us at rates less than half what we should have, though a few dollars may be in the prospec

In this article we have intended nought against honorable agents, or the system of the advertising agency. It is in itself good, and if country publishers had never yielded to starvation rates, the agency would have been a blessing to them, as well as a profit to the agents. It is not too late to begin the reform, and if publishers will let it be known that they intend contending for fair prices from agents, the agents will make their contracts accordingly. If it is necessary to carry out the princi-ple, let us call a convention of publishers of Virginia, and resolve to make the reform.-Fairfax News.

#### SPECIAL NOTICES.

SEASONABLE SUGGESTIONS. The heavy mists and cold night dews which characterize the present season are very trying to delicate organizations, and in low-lying and swampy localties they produce an enormous swampy localties they produce an enormous crop of intermittent fevers of various types and degrees of intensity. At this very time there are probably half a million of people in the United States suffering from periodical fevers by miasmatic fogs and exhalations. What makes the prevalence of this evil more deplorable it might in all cases be easily prevented. Malaria and damp produce little or no effect upon the system pre-fortified by a course of Hostetter's and damp produce little or no effect upon the system pre-fortified by a course of Hostetter's Stomach Bitters. Every fall and spring hundreds of letters are received from persons residing in fever and ague districts, who state that while their neighbors are incapacitated for labor by that debilitating disease, they have been happily exempted from attack by the regular use of the great vegetable antidote to miasma. As a chlologopic or specific for intermittent and remittent fevers the Bitters may be justly accounted infallible. They eradicate the complaints in their most obstinate forms; but the wiser course is to forestall attack by taking the preparation as a preventive. The amount of productive labor withdrawn from active service during several months in the year by malarious maladies is immense, and the pecuniary losses to individuals, families and the nation frem this cause is incalculable. Bear in mind that by toning and regulating the system with Hostetter's Bitters before the calamity comes, it may always be escaped; and let it also be remembered that indigestion, general debility, biliousness, constipation, nervous complaints, and indeed almost all disturbances and derangements of the physical system are controlable by this genial restorative.

#### DR. TUTT'S EXPECTORANT.

The properties of this elegant preparation are demulcent, nutritive, balsamic, healing and soothing. It braces the nervous system and produces pleasant and refreshing sleep. It exhibits and relieves gloominess and depression. It is the most valuable Lung Balsam ever offered to sufferers from Pulmonary diseases.

## E. J. MILLER,

#### Importer of and Wholesale Dealer in China, Glass and Queensware,

Is now receiving his stock of the above goods, to which he invites the attention of country merchants and dealers generally. Having the benefit of fifty years' experience in this business and unusual facilities for purchasing, he is able to offer his goods at as low prices as any house in the country, and all he asks is an examination of his goods and prices. Country merchants com-ing on the trains of the O., A. & M. R., and the W. & O. R. R. can look through his stock and leave their orders at night, as his house is kept

open for that purpose.

Besides a regular stock of CHINA, GLASS and QUEENSWARE, a number of other goods suitable for country stores, will be found such as BRITANNIA and SILVER-PLATED CASTORS, SPOONS, FORKS, &c., Window Glass and Putty, Stoneware, Fine Tea and Dinner Sets, and a variety of Fancy Goods—all at lowest prices for cash.

We again present to the agricultural community our Fertilizers with renewed confidence, as equal, if not superior, to any manure offered for all crops, not excepting Peruvian Guano. Year by year their value has become more manifest, as demonstrated by largely increased sales, and we challenge any brand to show more satisfacwe challenge any brand to show more satisfac-tory and uniform results. Confining our manu-facture to materials of highest standard, as proved by analysis, we claim like results in all time. On the Wheat crop the testimony is of unquestionable character. We respectfully call attention to our popular Guano, known as

GENUINE PHOSPHO-PERUVIAN GUANO, made of the highest standard of Peruvian Guano and Bone Phosphate of Lime, with Alkaline

BRANDED AA, Containing 6 to 8 per cent Amminia.

Potash, Soda, &c. Beautifully prepared and adapted to the Drill in sacks of 11 to the ton, of 2000 pounds, and sold at \$60 per ton-former-

ly \$70 per ton.

The character of this Guano is so well known as to need but little further commendation from us. Used for many years, it has become a favorite with all consumers, and it only requires a trial to convince all of its value. The Ammonia and Bone Phosphate being in rational propor-tions, it can hardly fail to render satisfaction, improving the quality and increasing the crop— it adds one other most important essential in the permanent improvement of the land—in this particular we question whether it has its equal. It acts wonderfully upon the grass crop and to such an extent as to bring improverished lands up to a high state of fertility—equalling Bone Dust. Such is the testimony of many accomplished planters. We begin the closest investigation as to the integrity and manufacture of pur compounds, and earnestly invite all consumers to inspect our works, material used, and mode of
